4.3. _____

4.4. _____

4.5. _____

QUESTION 5

GroundUp Reports

For years Itumeleng Phiri watched in frustration as people illegally dumped rubbish on a field near her home in Makhulong Section, Thembisa. The land has been vacant for many years and at some point, the grass was overgrown in many parts. Phiri, who became unemployed in 2012, started the recycling project, Itumeleng Future Solutions, in a bid to clear the large volumes of waste being dumped at the field.

When she started the project, Phiri would push a trolley at night or in the early morning to collect recyclable waste. "If there are events at night, I leave the house around 9:30pm to collect and return home around midnight and go out again around 3am," she said.

Ten years later she has partnered with companies such as Coca-Cola Beverages South Africa and Mpact to grow her business and would like to employ more people from the community. "On average, we collect between 300kg and 500kg of recyclable waste over weekends alone, which amounts to between R1 500 and R2 500" she explained. Her main challenge is transporting the materials. Right now, she is using a small trolley and has to make multiple trips.

In 2020, Phiri started a food garden on a portion of the field and currently employs eight people and grows spinach, cabbage and morogo. As more people become aware of what she is doing, they are now more involved in recycling and starting their own food gardens.

5.1. Give a definition of the following terms and give 1 example of each. [4]

5.1.1. Reduce

5.1.2. Reuse

5.2. 1. On average, how much recyclable material did Itumeleng collect during the weekends and how much income they received from that? [2]

5.2.2. What was the biggest challenge that she experienced with her project? [1]

5.2.3. Name the 2 problems that the project solved in the community. [2]

5.2.4. In 1 sentence, indicate how is littering a problem in your school. [1]

(10)

SECTION C INEQUALITY AND POVERTY QUESTION 6 Read the following paragraph and answer the questions that follow;

In 1948, The National Party won the elections and introduced a system of separate development between the black natives and the whites (Europeans). The system was designed to oppress black people socially and economically and take away their human rights. This led to a great deal of poverty for black people while the white people thrived in all respects. With the new government formed after the first democratic elections, a program was introduced, it was called the RDP.

6.1. What does the acronym RDP stand for? [1]

6.2. Name 2 programs with which the government is driving the RDP. [2]

6.3. Mention 3 types of grants that the government is offering to members of the communities to alleviate poverty. [3]

(8)

QUESTION 7

Study the pictures shown below and answer the questions that follow;

Picture A
